KYRA
MASSEY-
KENNEDY

PRESIDENT & CEO, OLYVERSUS | STEM
EXECUTIVE | PATENTED INNOVATOR |
YOUTH STEAMM.AI ADVOCATE

About Me

Kyra Massey Kennedy is a trailblazing inventor, senior executive, and nationally recognized STEM leader whose patented innovations are projected to impact industries exceeding \$18 billion globally. She is the first Black woman STEM professional to hold a patent on a multi-industry technology suite, positioning her as a transformative force in healthcare, defense, industrial safety, and smart monitoring technologies.

She currently serves as President of Olyversus, a technology research and development company advancing breakthrough innovations from prototype to commercialization, and is the founder of the MasKenn Foundation, a nonprofit dedicated to inspiring and preparing youth—especially underrepresented students—for STEM careers.

SIGNATURE INNOVATION: QUAD-T.E.C.H.™

Quad-T.E.C.H.™ (Technology Enhanced Communication Hub) is a patented, multi-industry safety and monitoring ecosystem developed by Olyversus.

Applications include:

- Healthcare & patient safety (bedsore prevention)
- Military & first responder protection
- Pediatric & veterinary post-operative monitoring
- Home & smart-building safety
- Industrial & refinery leak detection

Status: Prototype phase — undergoing testing, validation, and continued development. Olyversus is actively seeking **strategic partners** to support commercialization, pilot programs, and market expansion.

Mission: *Multi-Industry Safety Powered by Intelligence*

AT-A GLANCE

AT-A-GLANCE

Name: Kyra Massey Kennedy, MBA

Title: President & CEO, Olyversus

Location: Alpharetta, Georgia

Email: tech@olyversus.com

Office: 844-787-4834

Cell: 404-513-1315

LEGACY & INSPIRATION

PFC HESTER GIVENS MASSEY

One of Quad-T.E.C.H.'s flagship devices, the Hester PFC Military Vest, is named in honor of Kennedy's grandmother, PFC Hester Givens Massey—a World War II Women Army Corp (WAC) soldier of the historic 6888th Central Postal Battalion and Congressional Gold Medal honoree, featured in Tyler Perry's Netflix film The Six Triple Eight. The Hester PFC Military Vest is named in her honor, as part of a mission-driven invention legacy designed to protect and locate soldiers and first responders if they are ever lost and/or captured.

Education

- B.S. Mathematics & Mechanical Engineering – Florida A&M University / FAMU-FSU College of Engineering Full-ride “Life Gets Better” Scholarship
- MBA, Marketing
- Doctor of Business Administration (DBA), Organizational Leadership – Candidate (2026)

Career Highlights & Honors
